## HOW TO USE

1

Remove a tablet from the sealed roll, hold with clamps and light the edge of the tablet.

3

Add incense, when charcoal glows.

2

As soon as sparking is evident, place in burner. Be sure that the burner is placed on a heat resistant surface.

## RECOMMENDATIONS:

- DO NOT HANDLE THE TABLE WHEN LIT as this will cause a burn.
- If the tablet is to be extinguished before it is fully cooled then this should be done with cold water.
- In order to maintain freshness opened rolls should be resealed and returned to the box which should be kept closed and stored in a cool, dry place.
- Effective storage will ensure quick lighting and long burning.
